WHAT IS GWE?

GWE stands for '**Global Wealth Education**'. It is a 19 year old leading edge SELF IMPROVEMENT and WEALTH MANAGEMENT site which is helping people from around the world, transform themselves from being uninformed battlers into educated creators of abundance. You will be amazed at how easy it is.

GWE has not only made this very costly information easily accessible on line to a wide range of people via a onetime membership fee of \$150 but has also designed a co-op profit share-styled investment income system providing you with a long term growing income without you having to work or spend time on learning how to MAKE money online. GWE is about showing you how to earn and manage money.

GWE PASSES ON ITS WEALTH

GWE passes on an incredible 80% of the revenue from all new memberships that join GWE, to its existing members and retains the balance for administration. This high payout strategy is redefining the relationship and way business is conducted with its customers. The Sharing of wealth is what is needed to counteract the current economic crisis and the future success of modern business.

GWE generates abundant wealth by simply having a Global Family of people, sharing and caring. The formula is this: Growing membership numbers that invest in the organization = wider exposure to others = more people joining = more profit shares for all members.

HOW DO I MAKE MONEY WITH GWE?

Simply by being a member in the GWE system program. The distribution of money generated through the membership fee and product sales is based on a unique 'next in line of rotation system', members automatically receive profit share payouts which grow over time.

The more money generated the higher the payouts to all members. This is a Profit Share system using very smart money management. It's the same as having shares in a company that pays you dividends on profit, with no risk.

NO SELLING, NO WORK!

With GWE you pay a **ONE TIME membership fee of only US\$150**. There is a yearly membership renewal fee of \$99 but because of the high incomes you earn, you never get to feel it.

Unlike classic MLM, NETWORKING or BOARD GAMES, GWE does not have the problem with a leg (or group) egocentrically taking off and benefitting only a few. With GWE, everybody has the same advantage and no one is left behind. There are no monthly auto shipments, ongoing products to buy, stock to carry or targets to reach. **You invest money one time only**, everyone earns the same income over time. **The longer you are a member of GWE the more income you will earn.** Joining as soon as possible becomes an important advantage to your earnings.

LARGE AND GUARANTEED INCOME POTENTIAL

As GWE keeps growing, each member will keep progressing through higher payout levels and eventually receive a total of more than US\$1,500,000 (one and a half million dollars) before you graduate from the system.

This may sound unreal but it is the inevitable result of a mathematical formula based on new membership numbers and time. It may take several years to complete the full cycle but it will happen. This is not a luck of the draw, it is a wealth sharing system.

Here is a quick payout overview. For more details see the 'EARN AS YOU LEARN' page on the GWE web site. www.gwesolutions.com

This will automatically lead to extra Profit Share for you, without effort.

GWE COMPARED TO OTHER MONEY MAKING BUSINESSES

Comparing GWE to other investment opportunities such as, fixed term investments, forex trading, share trading and similar types, is that they are promising returns which are always subject to dramatic market changes, require a large \$ investment amount and are high risk. As seen by the current economic crisis, the guaranteed returns are often not worth the paper they are written on.

The risk common to many other classic types of money making systems, such as some MLM (Multi-Level-Marketing) systems for example, is that people often drop out of them after a few months. This causes loss to those who have put effort and money into building groups. The headquarters of such systems don't lose money, only the group builders do. Successful group building requires constant effort and money input and it often takes years before real profits flow. 95% never make it.

GWE has spent years analysing the positives and negatives of many different business models and has designed a unique custom system where the above cannot happen...

The GWE system is based on a fixed formula, whatever income is earned is shared with everyone using a simple 80/20 rule, (80% is shared with members and 20% for administration of the company) GWE shares the profit from money it has earned. You are rewarded by the length of time you are a member and the success of the organization as a whole which is contributed to by ongoing memberships and sales from everyone's efforts.

GWE can only move forward and there is no risk. You only stand to gain - however slowly,..... YOU WILL GAIN!

GWE has been structured ethically and fairly with everyday people in mind.

YOUR INCOME GROWS, REGARDLESS OF YOUR ACTIVITIES!

With GWE you DON'T have to push hard in order to have success! The expansion of the system happens automatically and naturally in 4 different ways.

- 1) GWE promotes the system via massive online exposure. This benefits all members.
- 2) Members naturally tell others about the system. This benefits all members.
- 3) Members will also gift memberships to others. This benefits all members.
- 4) GWE offers an incentive to affiliate marketers who just love to make extra money by promoting a good product. This benefits all members.

Summing it up, at the very worst, you will end up with a SELF IMPROVEMENT course and your money back and at best, you will become wealthy and help change the lives of others!

MORE REWARDS FOR THOSE WHO HELP EXPOSE GWE

As an affiliate marketer, you can earn additional income by bringing new members to GWE. Upon joining, you get a unique USERNAME and if anyone signs up using your username, you get an affiliate commission of 13%. Statistics show that roughly 5% of members will become supportive affiliate marketers and collectively they represent a powerhouse of positive movement for all in GWE. Together with natural word of mouth and organized mass marketing, the result for all in GWE is one of fail proof abundance!

ADDITIONAL BONUSES FOR MEMBERS

That's why SELF IMPROVEMENT is the bedrock of all future success. The "Vision" personal development series is presented by John Vasta, a leading Mind Power expert and founder of GWE solutions. THE RESULTS SPEAK FOR THEMSELVES

This seminar was the greatest weekend of my life, John provided me with tools to help me in every aspect of my life from my health, learning to achieved my goals, coping with stresses of work to improving my relationship. I recommended it to anyone ready for a more positive and fulfilled lifestyle.Helen M. Data Consultant

I have attended many motivational seminars during my business career, but this seminar is unlike any I've attended before. It provides you with techniques that really work to enhance every aspect of your life. This is an investment in yourself that you will gain from far beyond your expectations.....Paul. Business Operator

3/7/2009. "I have experienced headaches my whole life long, but about seven years ago I joined the ranks of many of my family members and had a migraine for the first time. Though I've only had a classical migraine that one time, ever since then I have been getting really severe headaches, at times for days on end, at times quite incapacitating. I would be most likely to get them when stressed, pre-menstrually or if I had been skipping meals. At times they haven proven resistant to all treatment - medical and natural. I think it would be fair to say I've tried just about everything - herbs, flower essences, homeopathy, osteopathy, Bowen Technique and sometimes, in desperation, pharmaceutical drugs. All of these would work for a while, or sometimes, but nothing that has proven truly effective. This was rather demoralising given that just about every client who consults me for headaches and migraines goes away mostly relieved of them.

While listening to John's audio, I discovered his "Headache and Migraine Technique". The next day I woke up with a headache. I was away from home for a few days, had not packed any of my normal remedies and had two full days of teaching seminars in front of me. So I lay in bed, did the technique, got up, had a shower and got ready for my day. By the time I sat down for breakfast the headache was gone.

2 days later another one threatened, so I did it again, with the same relief. Over the following month work was busy, I put my neck out, had a bit of a chocolate binge, got my period and there was a major family crisis - any one of which could have triggered a headache in the past. However thus far, having done the technique just those two times, I've not had a hint of a headache.

I'd happily pay \$150 just for this and consider it a bargain. I am enormously grateful for this technique, and the GWE Vision Audio Series includes a wealth of additional information and techniques that I know will assist you in mind, heart, body and soul..... Linn Wiggins. RN. Dip Herb Med. International Lecturer on Mind-Body Medicine and Natural Therapies.

The seminar was one of the greatest experiences in my life, the tools and techniques are so powerful....Christian. Publisher

The morning following the seminar I made a coffee and reach for a cigarette, the last one in the packet. Sixteen days later that cigarette was still there and still today there is absolutely no desire at all to smoke. There was no withdrawal symptoms no anything..... Gavin D. Papermaker.

With John's easy techniques I have lost 14 kilos in weight since doing the seminar without a restrictive diet, something I was never able to achieve before..... Peter.
